

## Marking

The following figures illustrate the standard marking system used for NHBB Precision Bearing Division ball bearings per MIL-STD-1647. Shown below are the markings for 440C Stainless Steel and the markings for 52100 Chrome Alloy Steel.

### ABEC 5, 7 and higher tolerances

440C

52100

### ABEC 1\*, 3 and 3P tolerances

440C

52100

\*ABEC 1 miniature and instrument bearings of both the metric and inch configurations meet the tolerances of ABMA Standard 20 for ABEC 1 metric series bearings.

## Packaging

NHBB's bearings are normally packaged in plastic vials, 8 or more per vial. If prelubrication or protective coating is not specified, oil per MIL-L-6085 (NHBB code LO1) will be used to prevent corrosion.

Vial Pack (No Code) — 8 or more per vial.

Pill Pack (Code P) — One bearing per sealed, plastic compartment. Connected in strips of 4.

Unit Pack (Code U) — Individual bearing placed in a plastic bag; bag is sealed; 10 or more packed in a paperboard box.

Other packaging options are available to suit your specific needs. See page 3 for more information.
